## **Services Sector**

Switzerland's WIR Trade System was used, as a model, for the American Trade System. There are 464 finance, accounting and corporate consulting firms in the WIR System. Hawk Sales is contracted, as an Outsourced Service Provider (OSP), to enroll new clients and generate business on their behalf.

Hawk's Swiss sales operation allows for a collaboration with practicing certified accounting firms that result in securing new clients for WIR and new engagement contracts for the accounting firms.

The following slides illustrate the variety of professional services available from members of the Swiss System, and the list of providers.
